

**MAKING
IT
SAFER
TO SHARE
THE ROAD**

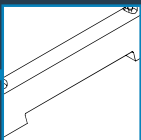

Precast Elements

Manufactured to CSA A23.4 in a CPCQA certified plant in Ontario

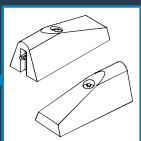

Handling

Galvanized lifting pins and connections make for a seamless installation

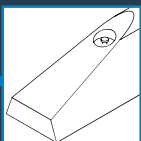

Flow Throughs

Allows water to flow through for road draining

Sleek Design

Low profile design makes it unintrusive to the street landscape.

Safety

Hook & Eye connections and tapered units prevent penetration or overriding protecting vulnerable road users.
