

March 17, 2020

To our valued customer;

The health and safety of our customers, employees and suppliers continues to be Brooklin Concrete's top priority. With the continued news surrounding coronavirus (COVID-19) I want to recognize the role Brooklin shares in your business and personally update you on the steps we are taking to protect our customers and employees alike.

- Brooklin's manufacturing facilities will remain in production and will continue to serve our customers during this time. We expect to meet all obligations in the near future including product quality and lead times.
- We will keep our customers informed of any changes that may occur.
- Employee well-being is a top priority. We are encouraging team members to follow all health authority best practices like frequent hand washing and staying home if they are feeling ill.
- As the pandemic progresses there may be government mandated closures or unforeseen circumstances that affect our workforce or supply base. As a result, lead times may tend to stretch beyond normal timelines.

Thank you for choosing Brooklin Concrete. We are committed to servicing your business needs in a timely fashion.

Regards,

Peter Froehlich
